# NEGROES DO NOT CONDONE CRIME.

NEGROES DO NOT CONDONE URIME.

It has been stated, especially by Southerns, that Kerpt leaders and those whe have endeavored to help the Negros cause in America so that right and justice may be his portion along with the other groups of citizens do not devote enough of their time and efforts in condemnted and preventing crime among Negroes, and this charge against the leaders and friends of our case is based on a false assumption prompted by race prejudice.

If there is any person or persons in the United States who think it or assume that the Negro is so instinctively criminal that it is necessary for the leaders of the race to form organizations throughout the growing the state of the race to form organizations throughout the problems of the state of the race to form organizations throughout the problems of the state of the race to form organizations throughout the problems of the state of the race to form organizations throughout the problems of the state of the race to form organizations throughout the problems of the state of the race to form organizations.

cointry to teach him to obey the laws of the land, they are badly mistaken. We the leaders among our race, and those who have helped our cause dop not condone traine committed by white or hack, and we naturally hate to hear of a crime committed by those whom we are trying to help, but we do not see why the crimes of one class should be magnified and the other class considered as a matter of course. We deny that she Negro is any more a criminal than any other class or group which make up the people of this country. All we ask is a fair trail. We do not hide or attempt to hide the criminals among as. All we ask is equal justice before the law. A prosecuting officer of St, Louis and: "Not half of the colored men and youths who are sentenced would be convicted if they were properly represented before the curret of this city. If that is the case in St. Louis, God help the colored men women and children who come before the different women cannot and children who come before the first of the South. This accounts for Abepend institutions of the land being the anding place for so many of our race.

penal institutions of the land being the anisons, penal institutions of the land being the anisons.

We are fighting crine wherevor we see it; we are fighting law-lessness wherever it seeks to trample the law under its feet, just as every good, tree and loyal American citizen should do. Yet we feet that we are peculiarly interested in these things because it is the members of our race who are vicinus of crime and lawlessness.

We have been sinned against horse than we have sinned.

# THE GEORGIA LYNCHING.

It is charged that "Aliens and Reds" are responsible for the outbreaks and strikes that are quite prevalent in the land just now. This may be true to some extent, but it is not, the part of wisdom to direct all of the attention of the officials strictly to that element who are styred as Aliens and Reds.

Law lessness and mobs are American diseases, and all they need to be, manifected is just a little encouragement. The aprint of Taw lessness is ever ready to seize upon any pretext that will give vent to the evil disease of lap hossissors.

When teath gets a hearing, it will be found that among the so-called aliens will be found many of the fight sounding boasted Americans who are holding themselves under the wings of these aligness.

## KEEP COOL

In times like these one should keep cool. There are many false, rumors that come whispering in one's ears which, if given attention, will make trouble for you.

When agonic comes to you with an exciting mory of race-riots, keep cool and demand the source of such information.

The enemy to peace and harmony between the faces has understood the old adage, "He whom the goods would descen has understood the old adage," He whom the goods would descen has understood the old adage, "He whom the goods would descen has understood the old adage, when we have the proof of the should have because we heard a false report.

In they the them, me some heat thoughts and keep cool.
